

ALISHBA HAROON

AI & Machine Learning Engineer

alishbaharoon988@gmail.com | [linkedin.com/in/alishba-haroon](https://www.linkedin.com/in/alishba-haroon) | github.com/Alishba-Haroon

PROFESSIONAL SUMMARY

Final-year AI undergraduate with hands-on experience building and deploying machine learning and NLP systems in Python. Delivered measurable improvements in model accuracy and training efficiency during a machine learning internship and shipped three independent applied ML projects spanning classification, NLP, and blockchain-based systems. Strong foundation in data preprocessing, model development, and API deployment; seeking an entry-level AI/ML Engineer or Data Science role.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, HTML, CSS
- **Machine Learning & AI:** Data preprocessing, feature engineering, model development & evaluation, NLP, deep learning, API integration
- **Libraries:** NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch
- **Frameworks & Tools:** Flask, Jupyter Notebook, Google Colab, Git/GitHub, VS Code
- **Cloud & Deployment:** Google Cloud Platform (GCP), Docker, version control, workflow automation
- **Data Analytics:** Power BI, data visualization, business insights & storytelling

WORK EXPERIENCE

AI Intern — FlyRank AI

Jul 2026 – Present

Remote

- Backend AI Engineering intern, building Retrieval-Augmented Generation (RAG) pipelines.
- Managed engineering data workflows to support model training and evaluation.

Machine Learning Intern — Elevvo Pathways

May 2025 – Aug 2025

Remote

- Optimized machine learning models, improving accuracy by 20% through iterative tuning and validation.
- Reduced model training time by 30% by applying feature selection techniques.
- Built a customer-facing chatbot that increased engagement by 35%.

Software Engineering Job Simulation — JPMorgan Chase (Forage)

Jan 2026 – Feb 2026

Remote

- Completed real-world software engineering tasks covering system design, debugging, and financial data analysis.

PROJECTS

Tie Breaker AI: Decision Support System

Jun 2026 – Jul 2026

- Built an AI-powered decision-making web app using React, TypeScript, and Google Gemini API, generating AI. Driven reasoning and objective recommendations for comparing multiple options.

Resume Analyzer

Jan 2026 – Feb 2026

- Built a text classification model using Naive Bayes and Logistic Regression, achieving 95% precision on spam detection.

Auto Subtitle Generator

Sep 2025 – Oct 2025

- Developed an NLP-powered subtitle generator using Whisper and Hugging Face models, supporting multilingual transcription and translation with 90%+ accuracy.

EDUCATION

B.S. in Artificial Intelligence

Superior University

Oct 2023 – May 2027

Grade: A

Intermediate in Computer Science

Superior Group of Colleges

Grade: B

Oct 2021 – Mar 2023

Matriculation in Biology

Allied School

Grade: A+

Apr 2019 – Feb 2021

PROFESSIONAL DEVELOPMENT

- Google AI
- Google AI Essentials
- Aspire Leadership Program Harvard
- Forward Learning Program McKinsey
- 5-Day Generative AI Intensive Kaggle
- Generative AI Google

LANGUAGES

- English
- German
- Urdu
